Selected categories with significant number of offenses that contribute to the image of a neighborhood as safe or unsafe.

All Categories, 2021, four neighborhoods, detail, page 8

- Increase of 405 offenses in the Pearl District comparing 2021 to 2019, with a drop in Society ● crimes and increases ● in the Person Crimes of Aggravated Assault and Simple Assault/ Intimidation as well as burglaries, motor vehicle theft, and vandalism.

## Summary Type of Offenses All Neighborhoods

"These state statistics reveal generally that, compared to other states, Oregon has a low violent crime rate and a high property crime rate."

4 neighborhoods percentages by type 2021

Type	All	Old Town	Pearl District	Downtown	NorthWest
Person	16%	33%	11%	18%	11%
Property	82%	58% 	85%	80%	88%
Society	2%	8%	4%	2%	1%
TOTAL	100%	100%	100%	100%	100%

- Unless you live in Old Town which is entirely a business district (hybrid)
- Or you live in the other three business districts in the Central City with nearly 1/3 of offenses being Society. Personal continues to increase and includes assaults and murders, but this is not just about COVID.

## Business Districts Crimes Summary

Strategic Services Division, Portland Police Bureau

**PPB is experiencing delays in the report review process due to the current public health crisis. Reports from February 2020 and later have not completed the quality control process. Due to the delays, PPB will be publishing preliminary statistics and data on this page that will be revised at a later date.**

This interactive report summarizes crimes reported to the Portland Police Bureau that occurred within a Business District. Crime reporting categories have been customized for this report to include crimes that are of interest to the Business Districts. The locations of reported crimes have been generalized to the block and the density of these locations are presented on the map. Due to the generalization of a location's point, some crimes may appear slightly outside the business district boundaries on the map. This report presents statistics for individual business districts only. Due to overlapping boundaries, comparisons between business districts and overall business district crime statistics are not possible.
